

ABOUT SHAW INDUSTRIES

Our Mission: We will exceed our customers' expectations in quality, service and value while continually increasing our value to stakeholders and providing growth opportunities for our people. We will accomplish this in an environment that values and respects the varied backgrounds of all people.

Headquartered in the United States in Dalton, Georgia, Shaw Industries Group, Inc. is the world's largest carpet manufacturer and a leading floor covering provider with more than \$4 billion in annual sales and 25,000 associates worldwide. Shaw is a wholly owned subsidiary of Berkshire Hathaway Inc. A full flooring provider to the residential and commercial markets, Shaw supplies carpet, rugs, hardwood, laminate, resilient, and tile/stone flooring products, as

well as synthetic turf. Ninety-five percent of Shaw's products are distributed within the US, and five percent worldwide. The company operates administrative, distribution and manufacturing operations within the US, as well as a joint-venture company in Mexico. Shaw also operates sales offices in Australia, Canada, China, Singapore and the United Kingdom as well as the US.

OUR COMMITMENT TO SYNTHETIC TURF

We are committed to being the premier synthetic turf company that meets all your needs - from having the resources and experience to engineer and install the best products in the industry to having the one-on-one personal level of service your organization can depend on.

Shaw Sportexe has a rich 20-year history in the sports surfacing industry with over 700 successful installations in the United States and Canada. Throughout our 20-year history, we have developed a team of professionals, which has a proven ability to design and construct the highest quality sports fields available. By conducting rigorous testing that measures both athlete-surface interactions and ball-surface interactions, we can ensure we are delivering

the right turf system with the best combination of durability, playability and safety characteristics. With the experience and resources we have to offer, we can also ensure your field is installed on time, within your budget and according to your specifications. And, our commitment doesn't stop when the field is in place. We are dedicated to providing the proper training and service you need to keep your field maintained for years to come.
